

Machine Maintenance Tech

Chapin Custom Molding, Inc. is an industry leader in blow molding services. Our world-class organization includes exacting manufacturing and progressive technology and design methods enabling us to meet and exceed our customers' expectations.

We are a successful and growing company located in Elyria, OH, approximately 30 miles from Cleveland. If you are a career-minded professional ready for the next step in your career, this position may be for you. Our culture is friendly, open and supportive; we value and reward high performance, and we provide significant opportunities for personal and professional growth and development. We offer continued learning opportunities through in-house training and continued education.

We currently have a full-time opportunity on our first shift for a **Machine Maintenance Technician**. This position will support our blow molding and injection molding production processes, including maintenance, troubleshooting and set-up of machines and related equipment. Will ensure proper housekeeping, safety and quality standards and practices are adhered to.

Specific Skills Required:

Must have prior manufacturing machine maintenance experience, including good **mechanical and electrical troubleshooting experience**

Experience with **blow molding equipment highly preferred**.

Must have experience with **hydraulic and/or pneumatic systems**.

HVAC or chiller knowledge and experience is **highly preferred**.

Physical Requirements:

Must be able to lift (70+ pounds), bend, push and pull (80+ pounds), grip, pinch, climb and complete complex jobs requiring awkward positions. This is physical, fast-paced work. Lifting and bending is also required.

Must have prior experience with and be able to obtain a company tow motor license.

Must be able to move skids of material with hand pallet trucks when necessary and floor load trucks as needed.

Other Requirements:

Must be able to work well with others and provide direction and follow-up to ensure tasks have been completed.

Commitment to all safety standards and good housekeeping required.

Must be willing to work overtime as needed.

Job Type: Full-time
